

**Position Opening – Cabarrus County Employee Health Center
Nurse Practitioner/Physician Assistant**

The Cabarrus County Employee Health Center was established in August 2006. The Cabarrus County Governmental officials needed a solution to help control their employee healthcare costs. CMC-NorthEast (NorthEast Physician Network) was awarded the contract. A Nurse Practitioner was originally hired to staff the facility and now the needs require adding an additional mid-level provider to the Team. There are approximately 1,000 Cabarrus County employees and retirees that have access to the Wellness Clinic. Additionally, any dependent that is covered under the employee's insurance can present for care at the clinic. This is why we are in need of a Family Medicine Nurse Practitioner or a Physician Assistant to join the County Wellness Team.

The County focuses on promoting wellness in the workplace and needs a provider to support such initiatives including wellness coaching.

Clinic is open Monday - Friday (8am – 5pm) and closed for an hour at lunch. There are four exam rooms and a lab. The clinic utilizes an Electronic Medical Record.
